

MATERIAL SAFETY DATA SHEET

HML SILCO liquid

Date of Issue: 20 August 2017

1. SUBSTANCE / PREPARATION AND COMPANY IDENTIFICATION

Chemical name of active ingredient: potassium silicate

Synonyms: potassium silicate liquid
silicic acid, potassium salt
potassium hydroxy(oxo)silanolate (IUPAC)

Recommended use: An adjuvant to enhance the effectiveness of specific potassium based soap fungicides and other substances on various horticultural crops.

Supplier: Henry Manufacturing Limited
P.O. Box 12-015 Ahuriri
Napier, 4144
Phone 027 – 294 – 1490
06 – 874 – 2921
Fax 06 – 874 – 2920

Emergency telephone number: 0800 POISON (0800 764 766) 24 hours

2. HAZARDS IDENTIFICATION

Hazard Classifications: Acutely toxic – 6.1D (oral)
Skin / Eye Irritation – 6.3A, 6.4A
Harmful to Vertebrates – 9.3C

HSNO Approval Code: HSR004068

3. COMPOSITION / INFORMATION ON INGREDIENTS

Substance/preparation Information on hazardous ingredients

Common Name	CAS No	%
potassium silicate (K ₂ SiO ₃)	1312-76-1	44%
water (H ₂ O)	7732-18-5	56%

4. FIRST-AID MEASURES

Description of necessary first aid measures:

<u>First-aid measures</u>	<u>Effects and symptoms</u>
---------------------------	-----------------------------

Ingestion: Acutely toxic. May be harmful if swallowed. If swallowed do NOT induce vomiting. Wash out mouth with plenty of water. Get

medical attention. Never give anything by mouth to an unconscious person.

Inhalation:	The spray mist may cause irritation to the respiratory tract. If inhaled move to fresh air and give oxygen if breathing is difficult.
Skin contact:	May cause irritation to the skin. Avoid contact with the skin. Wash affected area with plenty of soap and water.
Eye contact:	May cause severe irritation to the eyes. Avoid contact with the eyes. Flush eyes with copious quantities of flowing water for 15 minutes. Seek medical attention.
Notes to a physician:	Treat symptomatically. This product is an alkaline chemical.

5. FIRE-FIGHTING MEASURES

HAZCHEM Code:

Extinguishing media:	Compatible with all extinguishing media.
Hazardous thermal decomposition	Substance is non-combustible.
Protection of fire fighters:	Chemical goggles and resistant gloves, body-covering protective clothing and rubber boots.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions:	Wear PVC overalls, chemical resistant gloves, facemask or goggles, rubber boots.
Environmental precautions:	Contain spills. Mixes with water, high pH harmful to aquatic life. Prevent product or diluted product entering streams, ponds, lakes, water courses, stormwater or sewer systems.
Methods for cleaning up:	Prevent further spillage. Mop up and neutralize liquid. Absorb spilt material and place in sealable container for disposal. Wash down affected area with water. Absorb and collect washings and place in the same sealable container for disposal. Seek advice from the local authority regarding disposal.

7. HANDLING AND STORAGE

Handling:	Avoid contact with eyes and skin, and avoid breathing spray mist. Dries to form glass film which can easily cut skin. Keep container closed. Promptly clean residue from closures with cloth dampened with water. Promptly clean up spills..
Storage:	Keep sealed only in the original packaging. Store in a cool, dry, well-ventilated place away from direct sunlight. Do NOT decant into or store in metal containers.
Packaging material:	200 L plastic drum

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Workplace Exposure Guidelines

Exposure standards: None established.

Engineering measures

Exposure control measures: Use with adequate ventilation especially in enclosed areas. Keep containers closed.

Personal Protective Equipment

Detail specifications for equipment:

Respiratory system:	Appropriate respiratory protection is required where mist hazard may occur.
Skin and body:	Wear long sleeved shirt, long pants.
Hands:	Use gloves chemically resistant (eg nitrile or neoprene).
Eyes:	Use safety glasses if exposure possible.
General hygiene:	When handling do not eat, drink or smoke. Wash hands thoroughly after handling. Wash clothing separately before re-use.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical State: Colour, Odour:	clear to hazy, colourless, odourless, thick liquid
pH:	10.5-13.5 (100g/L solution @ 20°C)
Vapour Pressure:	n/a
Solubility:	miscible
Density:	1.44 g/cm ³ (20°C)
Flashpoint:	non-combustible
Explosion properties:	non-explosive
Oxidation properties:	non-oxidising

10. STABILITY AND REACTIVITY

Stability:	Stable under conditions of use and storage.
Conditions to avoid:	None
Materials to avoid:	Gels and generates heat with acids. Reacts with ammonium salts to give rise to ammonia gas. Reacts with damp or wet metals and may give rise to hydrogen gas.
Hazardous decomposition Products:	Hydrogen.
Hazardous polymerization:	Rapidly depolymerizes on dilution in the environment to give molecules that are indistinguishable from natural silica originating from geochemical weathering of silicate materials.
Specific Data:	
Hazardous reactions:	Metals

11. TOXICOLOGICAL INFORMATION

Acute toxicity – Oral:	Rat – LD ₅₀ 1600 mg/kg
Acute toxicity – Dermal:	Not determined
Acute toxicity – Inhalation:	Not determined
Skin irritation:	Rabbit – Irritating (solution, molar ratio 3.45, 29% conc.)
Eye irritation:	Rabbit – Highly irritating (solution, molar ratio 3.9, 29% conc.)
Sensitisation:	Not a sensitiser.
Chronic Toxicity:	None known
Mutagenicity:	Not Mutagenic
Carcinogenicity:	Not listed by NTP, IARC, OSHA as a carcinogen.
Reproduction toxicity:	Not a Reproductive toxin
Other Information:	

12.ECOLOGICAL INFORMATION

Ecotoxicity: High pH is harmful to aquatic life. Not persistent in aquatic systems. Do not allow undiluted product or large quantities of it to reach groundwater, water course or sewerage system.
May be harmful to terrestrial vertebrates.
Not toxic to bees.

13.DISPOSAL CONSIDERATIONS

Methods of disposal: Triple rinse container and add to spray tank, dispose of container via an Agrecovery® depot or otherwise crush and bury in an approved landfill. Do not contaminate any waterway with chemical or empty container. Ensure that any unwanted product is used in accordance with label directions.

14.TRANSPORT INFORMATION – International transport regulations

UN number	N/A
Class or Division:	N/A
Packing Group:	
Marine Pollutant:	N/A
Proper shipping name:	
DOT:	Not regulated as a hazardous material for transportation.

15.REGULATORY INFORMATION

ACVM Registered Number:	(not applicable)
HSNO Approval Code:	HSR004068
FDA (USA):	Regarded as GRAS (Generally Recognised as Safe).
SARA Title III (USA):	Not an Extremely Hazardous Substance under §302. Not a Toxic Chemical under §313. Acute Health Hazard under §311/312.

16.OTHER INFORMATION

Additional information:	Original Issue date: 20 August 2017 Revision Date: na Replaces: na
