

Stronger Vines. Better Grapes.

Spray mix	Efficacy Rating	Powdery Mildew		Downy Mildew Protectant	Botrytis	Enhanced Maturity
		Protectant	Eradicant			
Protector ^{hml} (0.5% solution) and Sulphur (label rate)	1	✓				
Protector ^{hml} (0.5% solution), Sulphur (label rate) HML Silco (see below for rates)	2	✓				
HML32 (1.25L/100L) and Sulphur (label rate)	2	✓			✓	
HML32 (1.25L/100L), Sulphur (label rate) HML Silco (see below for rates)	3	✓	✓ For infection only		✓	
HML32 (1.25L/100L), Sulphur (label rate) Copper fungicide (label rate)	3	✓	✓	✓ Due to Copper fungicide	✓	
HML32 (1.25L/100L), HML Potum (300g /100L), Copper fungicide (45g elemental copper/100L)	3	Significant protectant effect is achieved	✓ For infection only ✓ For maturing chasmothecia		✓	
Protector ^{hml} (1L/100L low pressure, 2L/100L high pressure) Nordox 75WG (30g per L of Protector)	2	✓		✓	✓ When used at 2L/100L	
Protector ^{hml} (2L/100L)	2				✓	
HML32 (1.25L/100L)	-				✓	✓
					Bunch line only	

Efficacy Rating

- 1 Good efficacy, low pressure
- 2 Very good efficacy, low - moderate pressure
- 3 Excellent efficacy - moderate to high pressure

HML Silco Rates

- 100ml/100L (if multiple applications)
- 270ml/100L (if only applying a couple of times)
- 540ml/100L in an eradicant spray mix.

Notes:

- ✓ Cover spray
- ✓ High deposition at bunchline, double pass (both directions)
- ✓ High deposition on canopy, double pass (both directions)
